

A SMALL AD IN THE DAILY CAPITAL WILL BRING LARGE RETURNS

REV. JOE McDOUGALL, PIONEER OF THE GREAT WEST, SAYS EDMONTON IS CENTRE OF THE NEW WORLD NEED BE PROVED

REPRESENTATIVES OF FRIED IN CITY FOR SOME MONTHS

SECURE LEASES BEFORE FAMOUS OIL MAN COMES

"Got All We Wanted," Says Geologist, "And We're Not Beaten Out!"

NOW BELIEVED HE WILL OPERATE EXTENSIVELY

Not Yet Talking of Development, but His Coming is Significant.

The coming of Julius Fried, the widely known California operator, into Alberta, appears to have a much older significance than at first thought. It was learned this morning that Mr. Fried has not come alone. Although he has been personally selected since, which afterwards proved to be very rich, he has brought with him to Alberta at least two assistants—one a geologist and the other a business manager for his interests in this district.

These two associates are now staying at the King Edward hotel and were located there this morning by a Capital reporter. They are C. G. Thresher, the geologist, and S. S. Fluhart, the business manager, both of whom have been from the state of Washington, where they recently organized the first and only oil company which has a well in that state.

Mr. Fried himself has been in the northern part of the province for the past few days, but is due to return to Edmonton tonight. While he and his associates believe that they have themselves secured locations which will prove to be permanent oil fields, however, they made it plain in an interview this morning that they by no means believe that their are the only ones there who may be found.

Not "Beaten" for Lands. They were particularly emphatic in replying to statements made in advertisements and interviews by certain oil companies and brokers in the city, also in Calgary and elsewhere, which apparently sought to convey the impression that Mr. Fried had been "beaten out" in selecting his lands, which are situated for the most part in township 16, range 8, west of the fifth, where, according to Mr. Thresher, two articles intersect each other.

As a matter of fact, Mr. Thresher was in the province some time before Mr. Fried and looked over the country where the above named lands have been secured. After he had made his report they engaged and found that the lands they wanted were still unoccupied and they immediately blanketed as much as they needed, stated Mr. Thresher this morning.

As Mr. Fried is one of the best known operators in the world, and probably the most successful who has yet come to Alberta, and his associates wish it to be understood that they are not connected with any concern which has put out stock on the Edmonton market, also that the second party to the lands they wanted were not beaten in them by any other men or concerns, as a matter of fact, they are the only ones who have secured the lands, and as such, as we have stated.

Not a word was said by Mr. Fried, who was located when Mr. Thresher made his report, but it was available and secured by Mr. Thresher, who questioned further, stated that the lease was in township 16, range 8, west of the fifth. He would not state exactly what form the lease would take there in the immediate future, but it is generally

"I HOPE SOMEBODY WILL SEE INSIDE PRISON FOR THIS"

London, July 14.—"I hope somebody will see the inside of a prison over this," declared an indignant shareholder at the Western Canada land meeting today. The remark received signs of satisfaction by several other members.

The meeting had been called for business declared several. Herbert Smith legal adviser to the company pointed out that long before a deposit was made the Canadian agency was the company's fiscal agent. It might not be a wise practice for the parent company to have money dealings with subsidiary companies, but it was no common law to be all but universal. The Canadian agency was in a very high position when the first deposit was made. The chairman, Mr. Tennant, said that the directors of the company had not the least idea, Mr. Grendell was entering into highly speculative business.

"You reckon our deposit a total loss?" asked a shareholder. The chairman answered: "You cannot put any value upon it at all." After some further discussion an advisory committee was appointed and it was determined to send a representative out to Western Canada to form an independent judgment on the spot concerning the value of the company's assets. The chief matter with which the shareholders approached the directors was the lending of 40,000 pounds to the Canadian Agency.

SEARCH FOR BOY'S BODY IN RIVER SO FAR UNSUCCESSFUL

So far the search for the body of 11 year old Freddie Sutton who was drowned in the river yesterday afternoon, while swimming in company with two other boys, has been unsuccessful, although two policemen along with two other men searched the river near the place of the accident, until dark last night, and resumed their task this morning.

The water in the Saskatchewan at the present time is particularly high, and the current very swift, and as the boy had no clothes on, when drowned, the chance of his body's catching on anything to stop its being carried down the river, is very unlikely, and it is believed by the mounted police that the body is more apt to be found some distance down the river, one instance being related where a man's body was carried down as far as Battleford before being washed upon a sand bar. Many people lined the banks last evening, scanning the water's surface for some sign of the boy's nude form, field glasses being used by many.

MEXICAN REBELS ARE SWEEPING THE PACIFIC COAST

On board U. S. S. California, Mazatlan, Mex., July 13.—(By wireless to San Diego, Cal.) July 14.—The insurgents are sweeping the Pacific coast of Mexico. Evacuations, occupations, armistices, and the exchange of prisoners are reported from many points to Hear Admiral Howard, commanding the American Pacific fleet and the indications are that within a week the Federals will remain in possession of only Mazatlan and Salina Cruz the only important towns. At Santa Rosalia, a mining port on the outer coast of Lower California, the Federals and Constitutionalists had a conference yesterday at which it was decided to bury the hatchet and make joint use of the port. The same procedure is expected to take place at San Blas, another Lower California port, while at Guaymas, the most important point on the Gulf of California, an armistice has been agreed to expire at midnight July 20th.

Girl Killed by Auto. Toronto, July 14.—Mary Metcalf, 9 years old, 65 Marlborough avenue, was yesterday thrown from a motor truck, over which the driver had lost control, one of the wheels passing over her head and she died before reaching the hospital.

The driver, G. N. Solway, 15 years old, who had offered the victim and some other children a ride, was arrested. Army Aviators Killed. Octobah, Russia, July 14.—Two more Russian army aviators, Capt. Jassapov, and his mechanic, were yesterday falling with their aeroplane, which collapsed during a flight.

WAINWRIGHT CASE MOST REMARKABLE MURDER MYSTERY

Police Working on Supposed Clues Admit They Have Difficult Task on Hand

ENMITY BETWEEN RIVAL LUMBER DEALERS SHOWN

Telegram from Stranger Making Appointment Received on Night of Disappearance

A full-sized Sherlock Holmes mystery is engaging the attention of the mounted police and the officers of the city's general department in connection with the supposed murder of W. H. Crawford, a well known real estate man and merchant of the town of Wainwright. Crawford mysteriously disappeared from his home, just as completely, it was observed at the time, as if the earth had opened and swallowed him up. It was not known then how accurate the simile was. The body of Mr. Crawford was later discovered at the bottom of a well on a farm about four miles from the town of Wainwright.

Murder Not Doubted. There is practically no room to doubt the fact that murder was committed. The body was in the water head downwards and the well had been carefully filled up. Suspicion was first aroused in the mind of a neighboring farmer, who, in driving past the well, saw that it had been covered with a manure pile. He informed another man who subsequently told Mr. Henry, then in law of the deceased. Mr. Henry commenced a search. He found the first eight feet of the well filled with manure, and beneath that were spars and then at the bottom of the well was a bag of cement with a piece of iron bedroll through the bag. The cement had hardened and the searchers found it difficult to remove.

Deceased Testator.

Mr. Crawford was a testator and a non-smoker and it is asserted by two doctors who made a postmortem that the death was not caused by drowning but was caused by blows on the head with a heavy instrument. It is regarded as extremely improbable that Mr. Crawford fell down the well, as he was a stout man weighing about 150 pounds and the mouth of the well was only two feet across. On the day of Mr. Crawford's disappearance, it is stated he received a wire from A. D. R. or W. R. Barker, of Tofteld, asking him to meet him about other lumber business. The sender of the telegram stated that he was placing several cars of lumber along the line and was traveling over the country in an auto without stopping. Mr. Crawford remarked to a friend that he would have to meet the man as he had apparently something good. Crawford left his office during the evening and was seen on the street about a quarter past eleven, by a clerk in the employ of the G. T. P. That was the last time he was seen alive by any of his friends or anybody who can be got to testify.

Business Enmity

It is said that there was some business enmity between Mr. Crawford and Mr. Crawford's operations. One of the witnesses at the inquest was T. G. Cook, who is also in the timber business at Wainwright, and who is the owner of the quarter section on which Mr. Crawford's body was found. Mr. Cook stated that he had had his quarter section rented and had not visited it for nearly a year before a few days ago, after the discovery of Mr. Crawford's body. Mr. Cook also stated that he was in bed at the time of the murder of Mr. Crawford. The police and the other officials working on the case admit that the mystery is one of the hardest that has ever come to the attention of the authorities in Alberta.

CITY FATHER WEDS GIRL WHO WATCHED OVER HIS MOTHERLESS CHILDREN

MRS. F. H. BOSSE

New York, July 14.—Friends of three small children of the alderman, and she at once took it upon herself to see that they did not suffer for maternal care. She did everything possible to make them forget their great loss and was a source of real comfort to the little ones. Alderman Bosse was deeply touched by Miss Burke's kindly interest, and he and the young woman became friends. This friendship soon ripened into love, and the city official lost no further time in providing his children with a mother to take the place of the one who had died.

PROFESSORS SPEAK AT BOARD OF TRADE REGULAR LUNCHEON

Point Out How University Laboratories May be of Use to Manufacturers and Others in Province—Minister of Agriculture Asked to Secure Low Fares for Harvesters from Cities to Farms—Overwhelming Majority of Members Want Prince Rupert Trip—Endorse Action of Industrial Association.

The laboratories of the university of Alberta exist for the benefit of the people of the province at large and that it was the policy of the university board to at all times supply Albertans with information and to help in every way possible new industries, were pointed out by two professors from the university, who addressed the luncheon board of trade at its regular monthly luncheon in the Empire hotel this afternoon. The chief speaker was Prof. W. M. laboratory of the university. He showed what was being done by that institution in the south Saskatchewan river near his home. The monthly report of the council of

VARIED LIST OF MATTERS COMING UP THIS EVENING

Mayor to Likely Suggest that Civic Survey be Made by Experts

TRAMWAYS LIMITED TO GET FRANCHISE

To Make Certain of Legality Money Bylaw Will be Read Again.

Mayor McNamara may tonight suggest to the city council at its regular weekly meeting that a survey of the city be made by the Municipal Research bureau of New York, one of whose officers his worship was in touch with while on his recent eastern visit. It is said, though not officially confirmed, that some of the aldermen are opposed to such a survey, on the theory that there have already been quite enough investigations. Alderman Calder some time ago raised a question as to the expense of the survey's first trip to the east, and this question may be threshed out again this evening. The commissioners, however, have a report to make regarding the application of Tramways, limited, the company which seeks to run a railway from the village of Nameto to the public market at First street. It is understood that a recommendation favorable to the request of the company will be made, which will result in an agreement being arrived between the city and the company similar to that between the city and the Interurban, which has a line from here to St. Albert.

A recommendation will also be made looking towards compulsory installation of sewers and water in houses in certain parts of the city. If the owners are not able to pay for same the city will do so and recoup itself out of the taxes on the property. The public works commissioner has recommended regarding paving certain streets and the purchase of a municipal plant. To make sure that the bylaw to raise \$400,000 by the issue of treasury notes is legally passed, it will be read for the third and final time again tonight. At Estabrook's special meeting it was read three times, but some objections were made by Alderman Burke which delayed the measure till tonight. Several other bylaws will also come up and if time can be found the mayor's suggestion of fortnightly instead of weekly meetings will finally be discussed.

Transmit Light by Wire

Paris, July 14.—An invention for transmitting light by wire, just as sound is transmitted by telephone, was described today to the French academy of science by Prof. Gabriel Lippmann, who read a paper on the remarkable instrument designed by George Rignoux and by him called the telephoto.

Kills Wife and Children

Oran, Algeria, July 14.—Under the influence of an overpowering hallucination, Captain Goss, of the second regiment foreign legion, shot and killed his wife and three children as they slept, and then committed suicide.

Boy Drowned Bathing

Saskatoon, July 14.—Edwin Egerton, aged seven and a half, was drowned yesterday while bathing in the south Saskatchewan river near his home.

Duke of Aosta Ill

Naples, July 14.—The Duke of Aosta, cousin of King Victor Emmanuel, is reported to be dangerously ill. He has been suffering from typhoid fever for the past three weeks.

DEVELOPMENT HAS UP TO NOW ONLY SCRATCHED CRUST

"First Soil and Grasses, and Then Beef and Coal, and Now it is Oil," He Says. PROPHESIED EDMONTON'S FUTURE AS EARLY AS '79 Makes Plea for Justice in Dealing with British Columbia Indian Tribes

Chief of westerners, pioneer, missionary and friend and counselor of the native Indians, the Rev. John McDougall, of Calgary, was the speaker at the banquet of the Canadian Club of Edmonton at noon today. The banquet was held in the "Hudsonia," the luxurious banquet hall at the Hudson Bay Hotel, in striking contrast to the surroundings in which Mr. McDougall dined when he was a boy in the Fort in Edmonton in 1862 and to which he referred.

Chief of westerners, pioneer, missionary and friend and counselor of the native Indians, the Rev. John McDougall, of Calgary, was the speaker at the banquet of the Canadian Club of Edmonton at noon today. The banquet was held in the "Hudsonia," the luxurious banquet hall at the Hudson Bay Hotel, in striking contrast to the surroundings in which Mr. McDougall dined when he was a boy in the Fort in Edmonton in 1862 and to which he referred. "I write to the Toronto Globe," said Mr. McDougall, "in reply to statements concerning Edmonton, and stated that Edmonton was the strategic center of a great territory that the world should be proud of and some day would be. I have never made a false prophecy in regard to the future of Edmonton and what I said of Edmonton in those early days, I feel to be more than ever true today. First it was soil and grasses and then cattle and coal and now it is oil that is attracting men to these fertile plains, and thus we go on. All development that has been done now is merely the nibbling of a mouse at the edge of the crust of a great pie."

Alex. Stuart, president of the club, introduced Dr. McDougall as a man who knew probably more about Alberta than anyone else in the province. Mr. McDougall drew some interesting comparisons between the early days and the present time. He referred to his first meal in Edmonton at the old Hudson's Bay Hotel. By that day's later he saw that the engineer of the Alberta and Great Waterways thought he had discovered a great country north of Edmonton. In 1862—old days ago—he was told of the great country to the north of Edmonton, far from the backwater river. The Hudson's Bay factor at Edmonton could not offer them anything but pounded grain meal and tea without milk, and that was all he could offer. At the battle river they left the edge of the great buffalo herd.

These men were not farmers," said Dr. McDougall, "they were just what their charter stated them to be, just adventurers. That was the condition of the country which was just a request to the westerners to keep the view of its riches from the outside world. I have never found it so."

Suing for Food. A picture of the warlike surroundings of the old Hudson's Bay fort in the sixties. In those days if he wanted a couple of pounds of sugar he had to get an order from the chief factor and almost so down on his knees to get it. Today that was all changed and the Hudson's Bay said: "Come in and see what we have, monster you want to buy or not."

What a marvelous contrast between the first crossing of the Saskatchewan at Edmonton and his crossing over the high level bridge that day. And we are only on the fringe of this development," said Dr. McDougall. "We have only begun to scratch the surface of the resources of this vast country."

Treaties with Indians. Dr. McDougall spoke about the treaties with the Indians in the course of the conquest of the north, what he said the sickle Indian almost before English lands and thus had been called in to various far-reaching conferences with white men never admitted to the council lodge of the North American Indians. Chief Sweet Grass introducing him told his followers that "he looks like white man, but his brain is like an Indian's." "Don't ever run away with the idea that these reserves were formed by the government," said the speaker, "they were that part kept out of the general consideration by the Indians, and were selected by the Indians themselves."

"These treaties have been splendidly kept," Mr. McDougall said. "I was amazed, however, when I was sent out to the general consideration by the Indians conditions to find that with the exception of only one small part

(Continued on Page Seven.)

THE ARRANGEMENT WHICH MAKES ALBERTA STEP-DAUGHTER OF CONFEDERATION.

In the year 1913 United States received 1,387,318 immigrants from Europe, mostly Italians, Poles, Russian Hebrews and Austro-Hungarians.

Of this vast number only 22,024 were destined for the south, where the greatest demand for labor is, or rather where there is least unemployment; 53,618 went west to the country lying between the Mississippi and the Rockies, and 814,641 remained in the already over-crowded States of New York, Massachusetts, New Jersey, Ohio and Illinois.

So that United States, after more than a century of experience with the immigration problem is still pumping humanity into the section where every acre is fenced and every opportunity taken up, and is still leaving practically unused immense areas with boundless opportunities in the west and south which require only population to turn them to usefulness.

Herein, the failure of the immigration system, or rather lack of system, as practiced in United States, is seen at a glance, and a comparison of the conditions in United States with those in Canada will show that Canada is very rapidly tending in the same direction.

To those who have not given the question very serious thought, the tendency is to blame the condition upon the foreigner, to brand him as low caste and to deride his shiftlessness in not going onto the land. But to those who have followed the matter seriously it has long since become patent that the greatest reason is not lack of desire, but lack of capital, which, added to lack of knowledge, makes it virtually impossible for the foreigner to ever get onto the land.

Already the province of Ontario is commencing to take this view, and serious consideration is being given to a proposal to prepare ready-made farms for immigrants, stock them to a certain extent, and turn them over to those who show a desire and some capacity to establish homes which may eventually add greatly to the wealth of the country, the government taking a long term mortgage for its return.

This problem, which confronts United States as a national question, and which is already confronting Ontario, is due to confront the western provinces as well. To a certain extent it is doing so already. Since the change in the character of the immigrants which commenced when the conservative government came into power in Ottawa it is obvious that the settlement of the western provinces has not been going forward as rapidly as it should have been, and this notwithstanding that the provinces have pledged themselves for immense sums to make accessible more and more land for farming purposes. In fact, it may be said that aside from the country which constitutes the hinterland of Edmonton and a comparatively small frontier fringe of Saskatchewan, where free land is still available or is at least very cheap, the great settlement movement has practically ceased. And while this is true, and while there are still millions upon millions of acres of unused land in the railway belt of the three provinces of Manitoba, Saskatchewan and Alberta, the federal government finds itself confronted with the problem of unemployment in so acute form in Montreal that the proposal of wholesale deportation is being seriously made.

Ontario, owning her own resources, may be able to work out the solution along rational lines. But neither the western states nor the western provinces own their resources, and the outcome in both countries is the same—millions of acres with no people; millions of people with no acres.

The folly of it all is so apparent, and the ease with which the province of Alberta could assist in the solution were she the mistress of her own resources is so evident that the wonder is that Albertans submit to the continuation for one day of the arrangement which makes this province the step-daughter of confederation.

BRITISH COLUMBIA ESCAPES A HINDOO VISITATION.

After having lain for months in Vancouver harbor aboard the Japanese ship Komagata Maru awaiting an opportunity to get into Canada, the three hundred and fifty Sikhs whose case has caused such a controversy on the coast are finally to be deported in the ship in which they came to Canada and an end has probably been put to what looks to have been an attempt to force open the sunset doorway to an influx of Hindoos.

The whole case has been very mysterious throughout. Just how a shipload of Hindoos happened to come to the Pacific Coast or who was responsible for the excursions has never been fully explained, but certain it is that they did not charter a ship and set out for Canada of their own accord. Also, it is very certain that they have had the advantage of the very best legal advice in their efforts to enter the Dominion and not until the ruling of the immigration department went up to the highest court in B. C. did the dusky passengers of the Komagata Maru consent to give up the fight for entry.

If there was, as there appears to have been, a deliberate attempt to pry open the door and flood British Columbia with helpless and incompetent Hindoos, that province is to be congratulated upon its escape from such a visitation. Already the coast country has altogether too many of them for comfort. Capable of none but the most ordinary labor, and receiving therefore wages so low as to barely keep them while working, they invariably become a charge upon the community in the winter time, and in a climate to which they are not inured and which they do not understand their condition frequently becomes pitiable. A host of them on the Pacific Coast would amount to a plague, and the Hindoos themselves would be the worst sufferers.

The Adventures of Kathlyn

By Harold MacGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn Kane, believing her father, Col. Kane, to be dead, has been living in a home in California to go to him in Alaska. In the meantime, she has been told that she is the daughter of a man who is now in Alaska. She has been told that she is the daughter of a man who is now in Alaska. She has been told that she is the daughter of a man who is now in Alaska.

When Kathlyn retires, at the expiration of the week of grace, her refusal to marry him also receives the approval of the supreme tribunal that she is to undergo no trials with him, but that if she survives she is to be permitted to rule with him.

Through the pluck and resourcefulness of Kathlyn and the courage and fellow passenger on the boat which brought her to Alaska, she has come to her assistance, she escapes unharmed from the clutches of the Indians, and is rescued from the hands of the Indians. She is rescued from the hands of the Indians. She is rescued from the hands of the Indians.

After a ride filled with peril she takes refuge in a ruined temple, and is rescued from the hands of the Indians. She is rescued from the hands of the Indians. She is rescued from the hands of the Indians.

When the report town, from which they intended to go to the coast, is found to be a trap, the colonel rescues by calling the news of the day. He is rescued by calling the news of the day. He is rescued by calling the news of the day.

(Copyright, 1914, by Harold MacGrath.) (Continued.)

CHAPTER XXVII.

While Bruce and two of his men carried Kathlyn out of her way to the shelter of the underbrush, where he liberated her, Ahmed drove Umhalla and his platoon of soldiers over the brow of the hill. Umhalla could be distinguished by his robes and turban, but in the moonlight Ahmed and his followers were all of a color, like cats in the dark. With mad eyes he saw the warning that he was being treated with these indignities. Umhalla could not tell who his assailant was because he was given no opportunity to turn.

"So!" Ahmed shouted. "Swine! Take that, and that, and that!" Stumbling on, Umhalla cried out in pain; but he did not ask for mercy. "So?" Tell your master, Duran Ram, how bites this gun butt, as I shall tell mine the pleasure it gives me to administer it! Swine! Ha, you scoundrel! Up with you!"

Utter and bang! Doubtless Ahmed would have prolonged this delightful entertainment to the very apex of the palace, but a full troop of soldiers appeared at the foot of the hill, and Ahmed saw that it was now his turn to take to his heels.

"Swine!" with a parting blow which sent Umhalla to his knees, "tell your master that if he harms the little Memsahib in the palace he shall die! Let him remember the warnings that he has received, and let him not forget what a certain danger holds!" Umhalla staggered to his feet, his sight blinded with tears of pain. He was no longer now, and Ahmed's final words rang in his ears like a cluster of bells. "What a certain danger holds!" Stumbling down the hill, urged by Ahmed's blows, only one thought occupied his mind: to wreak his vengeance for these indignities upon an innocent girl. But now a new fear entered his craven soul, craven as all cruel souls are. Some one knew. He felt into the arms of his troopers and carried him to a litter, where he was taken to the palace. His back was covered with bruises, and but for the thickness of his armor he must have died under the beating, which had been thorough and masterly. "What a certain danger holds!" In his chamber Umhalla called for his peg of brandy and champagne, which for some reason did not take hold as usual. For the

first time in his life Duran Ram, called Umhalla, knew what agony was. But did it cause him to think with pity of the agonies he had caused them? Not in the least.

When Ahmed rejoined his people, Kathlyn was standing against his father's shoulder, smiling wistfully.

"Where is Umhalla?" cried Bruce, asking Ahmed by the arm.

"In the way to the palace!" Ahmed laughed and told what he had accomplished.

Bruce raised his hands in anger. "But, Sahib!" began Ahmed, not comprehending.

"And, having him in your hands, you let him go!"

Ahmed stood dumfounded. His jaw sagged, his rifle slipped from his hands and fell with a clank at his feet.

(To be continued tomorrow.)

DOUBLE SUBSIDY TO RAILWAY WAS NOT WARRANTED

Commissioner's Finding in Southampton Railroad Case Against Company

EITHER CONTRACTOR OR ENGINEER RESPONSIBLE

Bank Account Shows that Contractor was Overdrawn Until Subsidy Paid

Fredericton, N. B., July 14.—The inquiry conducted by Commissioner R. A. Pringle, K.C., of Ottawa, into the Southampton Railway company, to determine why the double Dominion subsidy of \$5,000 a mile was paid, was brought to a close here late yesterday afternoon. Commissioner Pringle, in a short address, stated that the evidence proved beyond a doubt that the road was not entitled to the subsidy.

An enormous amount of evidence was taken at yesterday's sitting and J. K. Pinder, who built the line, was the most interesting witness. Mr. Pinder was on the stand from 11 o'clock in the morning till about 3 in the afternoon. In his evidence he told the story of the construction of the road from start to finish.

The construction, according to his figures, cost \$1,371,822, made up of \$1,277,777 for the proceeds of the sale of the \$150,000 worth of bonds guaranteed by the provincial government, and the \$1,277,777, received from the Dominion government in subsidies, together with \$1,465,632 which Mr. Pinder claims to have spent from his own pocket. Commissioner Pringle put the cost per mile at \$17,000. This is about \$2,700 more than the \$14,300 which the Dominion order to receive the double subsidy.

The independent experts employed to estimate the cost of the Southampton railway place it at \$158,000. Messrs. Wals, Kilbourne and Milner, who were recalled to the witness box late in the afternoon, refused to materially change their statement after listening to the evidence adduced by the defense.

William S. Thomas, manager of the Fredericton branch of the Bank of Nova Scotia, when called, testified to the business conducted with his bank by the Southampton Railway company. He said that the account was in the name of J. K. Pinder and that at one time the latter was \$100,000 overdrawn. This amount was made up by the proceeds of the sale of the bonds and the Dominion subsidy. He had no personal knowledge of where the money went after being drawn from the bank.

In a short address just before the inquiry closed, Commissioner Pringle, after thanking the lawyers for their efforts in clearing the matter up, made it plain that the blame was between J. K. Pinder and D. W. Brown, the engineer. He will report to the department of railways and canals.

Mr. Pringle went to St. John last night on his way to Charlottetown, where he will preside at an inquiry into some dredging matters.

ADMINISTRATIVE CHANGE IS ASKED BY B. C. WORKERS

Claim that Persuasion Has Failed and Ballot is Only Remedy Left

UNEXPECTED JOLT MAY BE GIVEN SIR RICHARD

Workers, Comprising Eighty Per Cent. of Voting Strength, are Disatisfied

Vancouver, July 14.—Delegates from labor unions in every part of the province assembled in the labor temple this morning in response to a call for a special convention by the executive of the provincial federation of labor. Over 60 are representing unions in the cities of Victoria, New Westminster and Vancouver, and 40 others from the island and interior points.

The convention was called to order by President Watchman, who introduced Mr. Robert Foster, president of the C. P. of the United States, to explain why the call for a special convention was issued.

Mr. Foster stated that the miners now on strike on the island were primarily responsible for the call, as they were satisfied now that a change of policy was needed in the methods to be adopted to bring this strike and consequent troubles to a finish.

Persuasion and pleading methods had, he stated, utterly failed to produce anything approaching a solution, and the miners desired to consult the members of other organizations in the province with a view to taking some common action.

Appealing to the convention in a general way for assistance, he indicated that they were now looking for new laws, as they had been unable to enforce what they had, but as the workers comprised 80 per cent. of the voters of the province that combined action should be taken at the ballot box in order to ensure a satisfactory administration. Concluding, he offered this as a possible remedy for existing conditions and stated that he desired ways and means of taking joint action throughout the province in this direction.

Earl of Ellesmere Dead

London, July 14.—The Earl of Ellesmere died today at the age of 67, he succeeded his father in the title in 1902 and his heir is his eldest son, Viscount Brackley, who was born November 14, 1872.

Westinghouse Strike Ends Pittsburgh, July 14.—The strike in the Westinghouse factories ended today when approximately 8,000 men and women returned to work. All strikers were taken back except two or three hundred whose places had been filled during the strike.

Dr. J. Douglas McLean and Mrs. McLean who have been visiting in Victoria leave there today for Edmonton.

Mrs. A. W. Young left Sunday for Gull Lake today, while Mr. Ponton and Master Archibald leave at the same time for Lesser Slave lake.

Mrs. and Mr. J. Smith, family and maid left yesterday for Cooking lake to spend some time at the Cape Cut-cage. Mrs. Smith's family accompanied them. Mrs. Cope returning in a few days.

Sir Louis Ducha of the supreme court bench, Ottawa, is acting governor-general in the absence of the Duke of Cornwall in Newfoundland. Mrs. J. D. Hyndman, of Edmonton, a daughter of Sir Louis, is at present visiting in the east and will spend some time in Ottawa.

There is to be a tennis association to make use of the municipal tennis courts on the old bar site on Syndicate avenue and Gallinger street. As these courts are provided for the city especially for those who are unable to play the large fee due at the private clubs, it should attract

ECZEMA TCHED AND BURNED

Rash on Legs and Back. Scratching Irritated Breaking Out. Used Cuticura Ointment. Disease Vanished.

Kentville, N. B.—"For about five years I was bothered with a light rash which would appear most heavily on my legs and back. This troubled me most in the spring of the year. They said it was eczema. The eczema tched and burned and my scratching irritated and broke out I could not obtain more than three hours' sleep each night it pained me so. My legs and back were a solid mass of itching sores."

"I was given some advice and after using this preparation about a week the disease became worse and I could not obtain any rest at night. I used all the patent preparations on the market but they only seemed to increase the suffering and I needed more relief whatever. About this time a friend recommended Cuticura Ointment to me. However, I had not faith in all remedies and told him so, but he insisted that I try Cuticura Ointment so I purchased a box. The first application gave me relief and after a week the sores were healing and I was able to obtain a good night's rest, the first I had enjoyed for many months. I continued the treatment for another month and by that time all signs of the disease had vanished." (Signed) Willard F. May, May 1915.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for afflicted skin and scalp that tortures, itches, burns, and dandruff sleep. Sold everywhere. Sample of each sent free, with 25c. tin. Box. Address post-card Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

JEWEL BALL THE LATEST FASHION

Paris Society in Rich Costumes, Received in Replica of Grotto at Capri

Paris has just had a wonderful Jewell ball given by the Comtesse Jacques de Broglie. The reception room was transformed into an exact representation of the blue Grotto at Capri. Each lady wore a costume designed especially to show her jewels. First in order came the diamonds. With these were worn costumes of silver tulle, garters of diamonds, tulle corsage embroidered in diamonds and hair ornaments of the gems.

Next came in order, sapphires, rubies, turquoise, emeralds, coral and pearls. The triumph of the evening was the valuations of the jewels. The white pearls. As each set of Jewels entered the photo certain dances were executed and the jewels, garters of diamonds, tulle corsage, and hair ornaments of the gems.

All then filed into the ballroom. Millions of dollars is placed as the valuation of the jewels. The pearls worn by the Baroness Henri de Rothschild are valued at \$100,000.

DO YOU KNOW?

That lace shawls are favorites in fashionable ways.

That many a girl loses her ideal when she marries it.

That the boulevard slouch is the latest dance craze in Paris.

That while velvet begonia has replaced gardenias on smart hats.

That in Paris girls are wearing coats of arms on their stockings half way up.

That a collapsible stove that hides in the wall is being made for apartments with sliding beds and folding furniture.

That Frank Palmer Spore, director of the Boston Y. M. C. A., this week relinquished the \$600,000 fortune left him by his first wife as he is about to re-marry.

That a woman who wears a pedometer while attending her household duties discovered by the end of a month that she had traveled 466 miles.

That the New York Woman Suffrage Association is offering \$50 for the best scenario for a moving picture play.

That Miss Annie Van Winkle, Health Commissioner in Nutley, N. J., declares that modern girls are more polite than the women of a month ago.

That the Immigration club, where English-speaking girls, strangers in the city, can spend the evening in suitable surroundings.

Mrs. Mary Her, of Sterling, Ct., 78 years, claims to be a direct descendant of the Stuart kings of England.

That the head of the Louis women's club is demanding of the state law revision commission that a law be passed requiring couples to have saved at least \$200 before a marriage license would be granted them.

That sealing wax red is a smart shade for linen.

That fashionable men and women now go in evening clothes to the moving picture shows in the west end of London.

That the all-yellow hat is the latest rival of the all-white or all-black hat.

That at a New York society wedding the bride followed the ancient Greek custom of carrying a wreath of jasmine.

That it is said that clothe make the woman, but it is surely true that it is the colors that make the blouse of 1914.

That the London News advocates accompanying a profession for women as it declares that is the only branch of the professions that is almost empty and that offers good posts to girls of talent.

That the girl who hates to go into the water for fear of wetting her hair need fear no longer. There is a new bathing cap that "really does" protect the hair. The cap is of best rubber and has two long "earflaps" which fall at either side of the face, cross over and button in such a manner that the water cannot touch the hair above the water line. So, now, girls, you may swim to your heart's content and not go through the process of hair bathing afterward. Incidentally this cap is very becoming.

Theatres and Picture Shows

SCHILLER'S STRING QUINETTE CAPTURES PANTAGES' AUDIENCE

A big musical bill is being offered at the Pantages this evening. There are three equally pleasing headlines on the program, and the entire bill is somewhat above the ordinary. Of the musical offerings, high honors might well go to the Schiller String Quintette, a group of charming young ladies whose abilities with violin and piano are superb and render as high a class of program in their line as is heard in vaudeville. The young ladies made a big hit with their offering last night and Miss Helen Schiller pleased with a couple of songs.

Next came in order, sapphires, rubies, turquoise, emeralds, coral and pearls. The triumph of the evening was the valuations of the jewels. The white pearls. As each set of Jewels entered the photo certain dances were executed and the jewels, garters of diamonds, tulle corsage, and hair ornaments of the gems.

All then filed into the ballroom. Millions of dollars is placed as the valuation of the jewels. The pearls worn by the Baroness Henri de Rothschild are valued at \$100,000.

LYCEUM THEATER HAS FINE HOT WEATHER PLAY ALL THIS WEEK

"An Englishman Abroad," the bright comedy presented by the Lyceum players at that stock house this week, is surely a hot weather play of the most pleasing kind.

Comedy that makes the audience forget the weather altogether, assisting the electric fans and other modern conveniences which the theater has installed for the utmost comfort of its patrons, runs through the play.

There is, however, just enough of a plot to take the offering entirely out of the force of burlesque class. There is a white crust from hand wash which may be cleaned by strong vinegar.

But it in the water bottle and shake it around a bit, then let it stand till the time is out when it may be washed the usual way.

Puffed crackers to serve with soup are made by splitting the crackers and covering them with ice water in a shallow dish. Soak seven or eight minutes. Lift out with cake turner, place on a covered baking tin, dot with butter and place in a hot oven until they puff and are a delicate brown.

Glassware and water bottles coated with a white crust from hand wash may be cleaned by strong vinegar.

COUNTRY STORE OPEN FOR BUSINESS AT THE BIJOU THEATER TONIGHT

The biggest bargain counter in the city offering real bargains that cost nothing will be open for business at the Bijou theater tonight when Manager Hazza will stage his weekly country store act for the benefit of his numerous patrons. There are so many prizes given away at this favorite bargain counter that even the manager of the Bijou has a hard time taking stock before Tuesday evening.

Everything from postage stamps that have never been mailed to muslin dresses that have never been worn will be placed on the bargain counter to be disposed of to the lucky holders of tickets bearing certain numbers. The man at the door who hands out the tickets is no respecter of persons. One person has as much chance of winning the big prize as another patron.

Then there is the motion picture which is always added to the general mountain of fun on Tuesday night. The feature of the program for Monday and today is "The lost sermon," a well told little story of a cleric that found a way under the most difficult circumstances.

The principal roles are in the safe keeping of William Garwood and Vivian Rich. Two members of the American Film company who can always be depended upon to contribute impressive portrayals of the characters they undertake.

"Our Country Cousin," a screamingly funny Keystone Comedy with a plot that is a story, and the current events of the world in picture complete the program.

Chase and La Tour, closed as the topical songsters are all of that and then some, and are a very entertaining pair when it comes to fifty songs, graceful dances and many good jokes. Their entire act is good and good well with the first evening audience of the week.

Herna and Preston are fast and funny tumblers, seen in many old stunts and with their act.

Their high class pantomime and orchestral music complete a highly pleasing act.

Wonderful Human Appeal in Great Film at Empress

Pleasing throughout is the film program at the Empress theater this week. Two days this week, the lead headline is "The Underworld," which is cleverly placed at the top of the program because of its wonderful human appeal.

An East Side Jew who peddles small articles such as suspenders, ties, mirrors, etc., is the hero of the picture.

Officer Maloney starts after the gang, and arrests their leader, Frank Kelly. Because of his connection with several crimes of a similar nature, Kelly is given five years in the penitentiary by the judge.

In the meantime, the Jew, so called because Maloney has protected him so far as possible that he gives the policeman a hard time.

Ten years ago and Frank Kelly is out of the penitentiary and has gained a certain power as a ward politician. He starts a gambling joint with a man of similar ilk. It is arranged to frame up on Maloney. The plan is to telephone to Kelly, Harold Holland of Lord Henry, E. C. Edwards of the marquis, Edward Hearn of Col. George, and the other names of the list.

Age, the negro servant and of Capt. Dumont. Misses Pamela Kessler, Thorpe, and Irene Lorton appear.

Maloney is called on the carpet and dismissed on the allegations of Kelly. Maloney becomes ill, and finds himself unable to pay his rent.

The agent for his apartment calls and orders him to move with his wife and daughter the following day.

Maloney, however, without a cent, but without a word. Finally, Maloney's daughter goes to the owner of the apartment and turns out to be some other than the former Jew peddler who has become a wealthy merchant.

The girl pleads with the elderly Jew, and he suddenly recognizes the bracelet she is wearing. The Jew's gratitude knows no bounds, and he has Maloney reinstated, and the little matter of rent is amicably adjusted.

Beyond the City," an American film that is well worth seeing, and two Keystone comedies that are really funny, entitled "Help! Help! Hydrophobia" and "Passions—He Had Love."

LYCEUM THEATER PLAYERS TO BE SEEN AT PANTAGES THEATER

R. E. Bradbury, the well known character actor of the Lyceum Players, at the Lyceum theater, will be seen Thursday afternoon at the Pantages Theater in a sketch entitled "Outraged," a story of a life of a man's journey between London and the United States.

Mr. Bradbury has an excellent character to portray and in presenting this act he will be assisted by Edward Lester and Irene Lorton, also of the Lyceum Players.

ESKIMOS WON AND LOST TO

MILLERS YESTERDAY—O'BRIEN

AND STALLCOP ARE RELEASED

O'Brien Goes to Saskatoon and Stallcop Will Try and Make the Same Team—Eskimos Won 11 to 4 and Lost 4 to 1—Hewitt Won and Chapman Lost—Bill Fortier is Hitting the Ball

Moore Jaw, July 14.—Edmonton Eskimos will even their yesterday, the visitors winning the matinee performance by 11 to 4 and the home team making the evening game 4 to 1.

Fifteen hits were clouted off Pest in the afternoon game although Hewitt was wilder than a flock of hawks, but got away with the verdict. A home run to left field by Manager Weed of the locals, in the ninth with one on, featured the game.

Harrah pitched wonderfully steady ball in the evening and did not walk a man, while Chapman landed transportation to six.

Harrah won the game, 4 to 1 by virtue of a timely three-base clout by Price in the first inning which drove in two runs and with Price scoring a moment later on Walby's single.

Harrah had a three run lead which he easily related.

Fortier's two long triples and three fine catches by Weed in the outfield featured the contest.

First Game—A. B. R. H. P. O. A. E.

Moore Jaw, July 14.—Edmonton Eskimos will even their yesterday, the visitors winning the matinee performance by 11 to 4 and the home team making the evening game 4 to 1.

FRANCE DEFEATS
BRITAIN—DOUBLES
DAVIS CUP GAME

British Team However Took Two Singles and Need One Gain to Win Round

Wimbledon, Eng., July 14.—Contrary to the expectations of the British critics, France defeated Great Britain yesterday in the doubles match in the second round of the Davis Cup tennis tournament.

The Frenchmen began in brilliant style, with a superior combination against which the individual ability of the British players availed little.

The second set was full of excitement and a case of ding-dong tennis throughout.

In the tenth game of this set the Englishmen twice were within a point of winning and they finally captured the set with a love game on Gernol's service.

In the third set the Frenchmen made a wonderful recovery, when the score stood 3-5 against them.

Gernol made some remarkable strokes, and the service of De Cugis was so swift that in attempting to return the ball on one occasion, Mavrogordato broke his racket.

The last set was characterized chiefly by De Cugis' smashing, which resembled Maurice McLoughlin's.

The American expert, and he scored the winning point by a mid-court smash that could not possibly be returned.

The British team on Saturday won the first two singles match and need only gain one of the two singles which are to be played today to win the round.

Smith and the French Idol Battle Thursday in London—Big Advance Sale

London July 14.—The fight between London Smith and George Carpenter is being billed as a combat for the world's heavyweight championship. It is urged by the promoters that Johnson has forfeited his claim to the title.

Johnson, under the direction of promoter Dick Burke, former English light weight champion, whose greatest claim is that he met Layvine for the world's championship.

The advance sales have gone over \$50,000, which is the largest gate money ever taken for a European ring contest.

By Thursday the sale will be even greater than the tremendous gate when Jeffries and Johnson fought at Reno.

Carpentier is the idol of the French. France fairly worships the man who has put fighting nations.

Frenchmen think Carpentier invincible—a world-beater. They have their full share of seats on the night of the fight.

England's interest is almost as great as that of France. The young Frenchman has most persistently insisted that the light title is his.

For centuries, when France was not a boxing nation, England smiled a superior smile. France has become a boxing nation, very largely through Mr. Carpentier.

Endale Press vs. S.O.S.

The following Endale Press men are requested to be at the Old Exhibition Grounds tonight at 6:30 to play against the Endale Press team.

Endale Press vs. S.O.S. The following Endale Press men are requested to be at the Old Exhibition Grounds tonight at 6:30 to play against the Endale Press team.

Game was Close, But Injury to Radials' Goalie Proved Disastrous.

By a score of 4 to 1 the senior Calles defeated the Radials on the old exhibition grounds last evening.

The game was one of the fastest played this season and both teams were evenly matched and up to the time Smith's Radials goalkeeper was injured.

The Radials had quite as much of the play as their opponents. Smith's injury just before half time was the signal for a grand rush by the Calles.

It was then they ran up their score. At half time the score was 4 to 0.

Referee Buckley, who officiated lined the teams up as follows: Calles—Goal, C. Parker; backs, Kinnaman and McIntosh; half backs, McPherson, W. Whitehead and Cowan; forwards, Collin, Todd, Tweedie, Dickie and Macdonald.

Radials—Goal, Smith; backs, Baker and S. Whitehead; half backs, McFarley, Loun and Kall; forwards, Sinclair, J. Hutton, Sonner, A. Hutton and Wilkie.

RED SOX SQUEEZE
OUT 2 VICTORIES
FROM MAD HATTERS

By Scores of 4 to 3 and 2 to 1 the Regina Men Whale the Manufacturers.

Regina, July 14.—Regina took both ends of a double-header yesterday. In the first, Joe Berger and Big Buckles engaged in a tough twisting duel beneath a burning sun.

Berger opened the door for victory in the sixth when he started with a single before Buckles had found the combination again.

Regina held the six men helpless. Buckles sent two runs across in the ninth but a double killing stopped the run just when it was getting serious.

In the second the Red Sox kept up their winning streak by trimming Martin. As in the afternoon, it was a pitchers' battle.

Medicine Hat started off well, touching Ryan for a run in the first inning but after that the Irish youth held the six men helpless.

After that, there was nothing doing in the scoring line.

First game—R H E
Medicine Hat . . . 000 000—8 9 1
Regina . . . 000 000—4 7 1
Buckles and Barth, Berger and Martin.

Second game—R H E
Medicine Hat . . . 100 000—1 4 2
Regina . . . 020 000—0—2 6 1
Martin and Bliss; Ryan and Netzel.

Kansas City, July 14.—(Federal)—Indianapolis bunched five of its nine hits in the fifth inning and won yesterday's game from the locals, 5 to 2.

A GRAND CANOE REGATTA AND
AQUATIC SPORTS TO BE HELD
LAKE WABAMUN CIVIC HOLIDAY

July 27th at Sega Beach Promises to be Greatest Water Sports Event in History of Province—Races of Every Kind to be Competed—Record Crowd Expected.

The second annual regatta of the Sega Beach boat club will be held at Sega on Monday, July 27 (Civic holiday) when a full day's program of aquatic sports will be carried out.

A preliminary meeting of the comers was held at James Macle's cottage last Saturday evening, when plans were laid for the big event.

The president's cup, a very handsome trophy indeed, donated by Jas. W. Mould for the free-for-all race, was won last year by Harold H. Richards.

This cup is for annual competition and becomes the property of the party winning it three times. Competitors in this event from Wabamun lake will be Ed. Cox, Geo. P. Dobson, H. H. Richards, U. M. York and Mr. Cavanaugh.

The program of events will be published in these columns in the course of a day or two.

A surveyed triangular course of 5.3 miles has been laid out at Sega Beach, and is now available for parties wishing to try out their boats.

WINNIPEG LEADS
REGINA RACE FOR
ROBERTSON CUP

Winnipeg, July 14.—With a lead of 82 runs and 8 good wickets to fall, the Wanderers have secured a strong lead in the match now being played between themselves and Regina for the Ross Robertson cup on the Nomads grounds.

The Wanderers, who won the tour, were sent in first by Teddie Laver, and managed 115 to which the visitors responded with 68, and with this lead of 46, the Nomads went back to bat and with the loss of two wickets had knocked out 37.

Chicago, July 14.—(Federal)—Chicago and St. Louis divided a double-header yesterday. In the first game, the visitors were unable to do anything with Watson, while Chicago hit Groome easily.

In the second game Crandall completely baffled the local bats.

Boston, July 14.—(American)—Columbia held Cleveland to two hits yesterday and Boston won, 2 to 0. The home team made many solid drives off Morton's delivery, but spectacular fielding by Graney and Leibold cut off apparently certain hits.

Winnipeg Grain
Winnipeg, July 14.—Winnipeg wheat
opened 1-4 to 1-2 lower; oats, 7-8 to
1-8 lower. Further reports of damage
to spring wheat by rust in Manitoba
were offset by reports from Manitoba
and Saskatchewan. There was
little change in the cashed news, but
reliable reports from the southwest
told of 190,000,000 bushels already sold
for export.
Market had but little action, the
only line showing any strength being
wheat, which at noon was selling at 145
for October. There is nothing doing
in export circles and some inquiry for
2 and 3 northern. News from Russia
is bullish, considerable damage being
reported from extreme heat in some
districts, and from wet weather in
others.

Wheat cutting has started in north-
ern Minnesota. This is taken to mean
that the crop there is badly hurt in
quantity and quality. Reports of rust
are still coming in, but exports seemed
inclined to consider damage as yet
actually done unimportant.
Deliveries through the clearing
house: Wheat, 42,500; oats, 4,900;
flax, 400; barley, 5,000.
Receipts were 265 cars inspected
and 289 in sight.
Receipts: Minneapolis, 171; Duluth,
70; Chicago, 621.
At 12:30 the market was weak and
had declined from 1 to 1-4 on
American and about 1-8 on Winnipeg
market.
Cables closed: Liverpool, 1-2 lower;
Berlin, 1-4 up; London, 1-8 up; Ant-
werp, 5-8 lower.

Winnipeg Cattle
Winnipeg, July 14.—Trading at live
stock yards Monday was quiet, and the
demand was slow. There are no dried
fed cattle on offer now, practically,
and choice steers are now quoted 7.25
to 7.50, this being about the top. Choice
heifers, 6.75 to 7.25; choice fat cows,
6.50 to 6.75.
Medium and common grades are not
in demand and prices showing weak.
The hog market is somewhat easier
than at the end of the week, and prices
Monday were 7.50 to 7.60.
Alterations: Hams, common, 3.75 to
5.00.
Choice hogs: 7.50 to 7.60.
Receipts for three days ending Mon-
day's, C.P.R. yards, 37 cattle, 346 hogs
and 193 sheep. Union yards, 538 cat-
tle and 339 hogs.

Chicago Cattle
Chicago, July 14.—Cattle.—Receipts,
15,000. Market strong. Steers, 7.70
to 10.00; Texas steers, 6.60 to 8.35;
stockers and feeders, 5.75 to 8.10; cows
and heifers, 3.90 to 9.15; calves, 7.50
to 11.00.
Hogs.—Receipts, 23,000; market high-
er. Light, 8.65 to 9.00; mixed, 8.55 to
9.00; heavy, 8.35 to 9.00; rough, 8.35
to 8.90; pigs, 7.85 to 8.90; bulk of sales
8.75 to 9.00.
Sheep.—Receipts, 22,000. Market
lower. Native, 5.10 to 6.15; yearlings,
5.90 to 7.35. Lambs—Native, 6.40 to
9.15.

Chicago Grain
Chicago, July 14.—Immense receipts
from new crop led to a decided fall
yesterday in the price of wheat. The
market, after favoring the bears
throughout the session, closed heavy
7-8 to 1-4 to 1-8 net decline. Date
finished off 8-8 to 1-4 to 1-4.
Arrivals of wheat in Chicago reached
a total of 1,118 car loads, believed
to be the largest amount that ever
came here on a single day. The move-

ment to other terminals, especially in
the southwest, also was on a heavy
scale.
The domestic visible supply showed
a huge gain.
Cuts tumbled with corn. July de-
veloped special weakness, the short
interest in that month seeming to have
been altogether expunged.
Black rust news turned to be of no
advantage to the wheat bulls. Not-
withstanding that in some places in
south Dakota the damage was esti-
mated at fifty per cent, the outlook
for the spring crops as a whole en-
couraged belief that chances were good
the plague. On the other hand there
were welcome rains where needed be-
yond the international boundary.

Montreal Produce.
Montreal, July 14.—The tone of the
market for butter continues steady,
first creamery selling at auction yes-
terday at 24 1/2. Cheese is firm with a
few business. Exports for the week
were 81,628 boxes, compared with
74,744 last week and 77,434 a year ago.
Eggs fair, with a fair demand.
Cheese.—Finest western, 13 to 13 1/2;
eastern, 12 1/2 to 12 3/4.
Butter.—Creamery, 23 1/2 to 24; sec-
ond, 23 1/2 to 24.
Eggs.—Fresh, 23 1/2 to 24; selected,
25 to 27; 1 stock, 23; 2 stock, 20 to 21.
Port—Heavy Canada, 2000
barrels, 35 to 45 pieces; 29; short cut
barrels, 45 to 55 pieces. 28 1/2.

Montreal Cattle.
Montreal, July 14.—At the West End
stock yards receipts for the week end-
ing July 11 were 1,500 cattle, 2,000
sheep and lambs, 1,500 hogs and 1,400
calves. The supply on the market
this morning for sale amounted to 1,150
cattle, 1,300 sheep and lambs, 1,300
hogs and 560 calves.
Owing to the very warm weather,
the falling off in the consumption of
beef and the increasing receipts of
cattle yesterday, a weaker feeling de-
veloped and prices declined since this
day week 25c per hundred pounds for
all kinds except bulls, which were
supply was especially limited for good
steady on account of the fact that the
most. A feature of the trade was the
increased demand for medium to choice
butcher cows and sales of full carloads
were made at prices ranging from 6.45
to 7.25 per hundred pounds, but the
demand for steers was rather slow, as
packers generally claimed they carried
over sufficient stock of such from last
week to fill their wants. Therefore
trade in this line was slow, even at the
reduced prices noted above.

Sales of a few carloads of choice
steers were made at 7.25 to 7.35, and
a picked small lot at 7.50 per hun-
dred pounds.
A stronger feeling prevailed in the
market for hogs and prices, as com-
pared with those of last Wednesday,
showed an advance of 10c per hundred
pounds, which was attributed prin-
cipally to the higher prices established
in the Toronto market at the latter end
of last week. The demand from pack-
ers was fairly good and active
trade was done with sales of selected
lots at 9.10; cows, 7.10, and stags, 4.55
per hundred pounds off car.

On account of the steady increase in
the supply of sheep and lambs coming
forward the tone was weaker and
prices declined 25c per cent. per hun-
dred pounds. At this reduction there
was a good demand from butchers and
packers because they have all dispen-
sary of their cold storage stock and a fair
trade was done.

Yearling lambs, 6.50 to 6.75, and
cows 5.50 to 5.75 per hundred pounds.
The tone for Ontario spring lambs was
steady at 8.50 to 7.00 each, but Quebec
spring lambs were much cheaper,
owing to the poor quality and sales
were made at 2.50 to 4.50 each. The
market for calves was firm owing to
limited supply of good to choice and the
good demand. Sales of milk fed
calves were made at 8c to 8 1/2c per lb.
and grass fed at 5 1/2c to 7c.

Toronto Stocks
Toronto, July 14.—The decline in C.
P. R. yesterday was the prominent
feature of the local stock market. It
was heavy in London from the start
and New York bears followed up the
attack, sending the price down to
15 1/2, the lowest in years. The declin-
e in Toronto was from 190 to 187 1/2,
while the bid at the close was
18 1/2, with sellers at 18 1/2. The de-
cline was a buyer on the raise on all street
during the afternoon. There was no
word to account directly for the de-
cline. The stock had not had any
strong support for some time. Baro-
clous was weak, making a new low
figure and closed with a net loss of
1 1/4. Brazilian was also weaker.
Canada Steamship preferred sustained
a net loss of 1/2, as also did MacKay
common. Shredded Wheat slipped off
a point. Toronto Railway made the
lowest price for some time and Twin
City eased to 102.

Prof. C. P. Steinmetz, of Phila-
delphia, predicts cheap electric auto-
mobiles for the near future.

FREE TO ALL SUFFERERS.
Sufferers from RHEUMATISM, GRAVEL, GOUT, NEURALGIA, MIGRAINE, SCIATICA, BRUISES, SWELLINGS, BURNS, SCALDS, SORES, ETC., can obtain FREE OF CHARGE, a complete and reliable remedy, by sending to the
DR. J. H. CROCKWELL, 613 TEGLER BLOCK, 654 FIRST STREET, EDMONTON, ALTA., a card stating the nature and location of the complaint, and the name of the sufferer. The remedy is guaranteed to cure, or the money will be refunded.

NOTICE
Office of Jas. A. MacKinnon,
Suite 706 Tegner Block,
Edmonton, Alta., July 9, 1914.
In the Matter of the Estate of the Corona
Hotel, Limited, a Corporation,
Alta. Insolvent.

Notice is hereby given that the above
named insolvent, the Corona Hotel Com-
pany Limited, who have been liquidated
as a hotel business in the City of Edmonton,
Province of Alberta, have made an assign-
ment of their estate to me, for the benefit
of their creditors, under the Assignments
Act of the Province of Alberta.
The creditors are notified to meet at
my office, Suite 706 Tegner Block in the
City of Edmonton, at 2:30 o'clock in the
afternoon of Wednesday, the 16th day
of July, A.D. 1914, for the purpose
of the appointment of a liquidator, and
for the purpose of the appointment of a
liquidator, with reference to the
disposal of the estate.
All persons claiming to be entitled to
make a claim, or to make a claim
by statutory declaration, with me on or
before the 17th day of August,
A.D. 1914, after which date I will dis-
tribute the assets thereof, having regard
to those claims only of which I have
received notice.

JAS. A. MACKINNON,

OIL SYNDICATE

Units in Syndicate for Sale for the Forming of

FIVE OIL COMPANIES

A splendid opportunity for investment. One company each will be located near the **Dingman, Monarch and Nakamun** wells and in the **Wetaskiwin and Fort McKay** districts.

A most feasible, unique and substantial plan to

GET OIL

Unit members will have stock in all five companies and to make our stock command par special privilege and interests for the stock buyer is provided. Units are being sold here in Edmonton and Calgary at only

\$100.00 EACH

Edmonton to be Headquarters.

Don't miss looking into this proposition—and get in on the ground floor.—For further particulars and to buy Units, see—

J. H. CROCKWELL, Broker, 613 Tegler Block
ELY REALTY COMPANY, 654 First Street
THE BENNETT CO., 118 Jasper Ave. East
JAMES BRADLEY, Room 3, Victoria Block

In the selling of the stock in these five companies we have considered the man who buys our stock in the open market more than we have the unit member; every person buying stock in either company has seven chances to win, so it can not help but be profitable to the unit member.
